

SENACTIV[®]

Harness The Power Of Cell Regeneration

Senactiv[®] can be used in most products, but it's most useful in:

Pre-Workouts

Aids with energy production.

Endurance

Increases VO₂ Max, making it an option for endurance athletes

Powders and RTDs

Water-soluble making it suitable for powders and RTDs.

Stimulant Free

Senactiv[®] is stimulant-free, meaning it is a great addition for pump products and non-stimulant pre-workout.

Recovery

Has anti-inflammatory properties which may aid with recovery
