# June 2024

This month, we've focused on a lot of preparation after an eventful May. We're excited to launch our mushroom rebranding and are gearing up for an exciting July with lots of events and updates on the horizon. Stay tuned for all the exciting things we have planned!

## New Products Launched with NuLiv Ingredients:

### Ascentix Essential Amino Acid Gummies

- AstraGin

### Infinis Glucose

- InnoSlim

### GHOST Intra

- AstraGin

### Stax Supplements Cherry Slush

- AstraGin

### Apollon Nutrition Desperado

- AstraGin

## A New Look for PRIME Mushrooms

We are excited to unveil a fresh new look for our Prime Mushrooms line! While we're not new to the mushroom space, our updated branding reflects our continued commitment to this evolving industry. We strive to keep NuLiv Science's Prime Mushrooms as the best nature has to offer.

We started down this path in 1997, introducing fermented *Cordyceps sinensis* to the United States. Today we continue to provide top-quality, rigorously tested mushroom extracts. Thank you for being a valued part of our community as we embrace this exciting new chapter!
